bticino

LISTEN TO YOUR DIGITAL MUSIC IN EVERY ROOM, FROM ANY SOURCE.

NUVO is an intelligent system, made up of audio HI-FI components, connected via Wi-Fi or with wires to the home LAN network. It is specially designed to faithfully play digital music in several rooms.

Using a specific free App for Smartphone and Tablet it is possible to access to music playlists in local network and the best online music streaming services.

Internet

Home LAN network

Nuvo system has excellent features such as:

- Simplicity
- Access all music
- Quality
- Installation flexibility

eliot
PROGRAM BY BTICINO

Eliot is the BTicino program dedicated to connected objects (Internet of things) which identifies all those products or systems which, because they can connect to the internet, give added value in terms of functionality, information, interactions with the environment and use.

Control keypad

Multi-zone professional player with Rack mounting

Outdoor speaker

Single-zone wired/ wireless player

Players for DIN switchboards

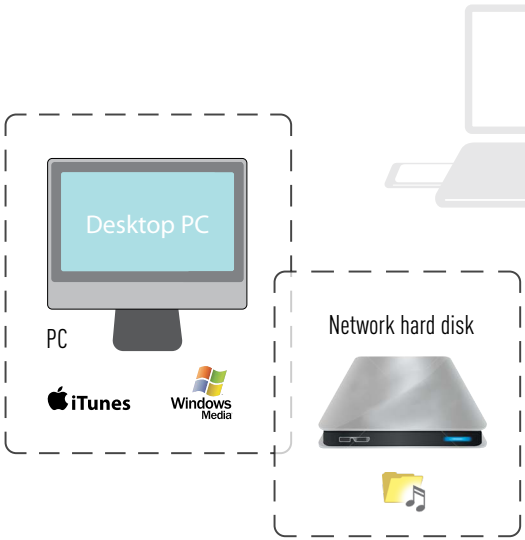

Indoor speakers

ACCESS ALL MUSIC.

Nuvo offers great listening freedom with integrated access to endless music options:

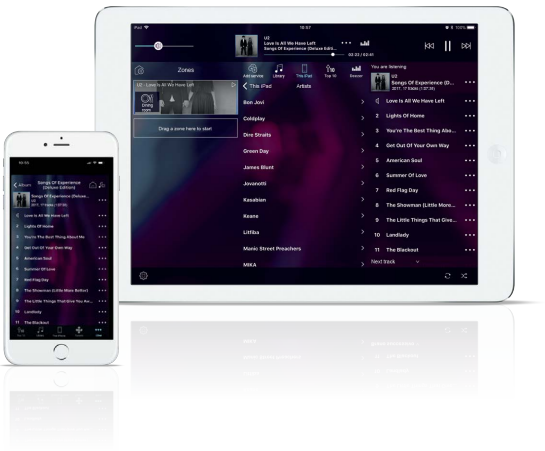

- access to the wide range of radio and streaming services in the Internet: Deezer, Spotify and Tunein;
- iTunes libraries and compatibility with Apple AirPlay2 (NV-P5050, NV-P5100, NV-P600 Vers2).

Whether it is an old musical success or one of the most recent releases, with Nuvo you are always in the company of excellent music.

DEEZER Spotify tunein

flac WAV WMA AAC Ogg MP3

COMPLETE CONTROL.

Player Nuvo App

It is very easy to get right to the music you love with the intuitive Nuvo app. With a simple touch you can display your music and favourite artists and select one of the two operation modes: play different songs in every room, or stay in perfect sync when broadcasting a single song throughout the home.

PLAYER NUVO APP

Manage music library, quantity, and playlists, as well as Play, Pause, Volume, Mute, Skip Track, and more.

Choose music from an unlimited variety of sources

Easy browsing by song, album, genre, and artist

Control music in every zone or in simultaneous zones to play one song throughout the home

Download App for free from iTunes and Google Play

Living Now digital controls and flush-mounted keypad

These devices add new player control modes. The flush-mounted Keypad and the Living Now digital controls in fact guarantee instant access to your music wherever you are in the home. Installation of the two devices is extremely simple and only requires the PoE electric connection for the Keypad and to the BUS MyHOME_Up for the digital controls.

KEYPAD ITEM NV-P20-LLN/-LLNT/-LLNL

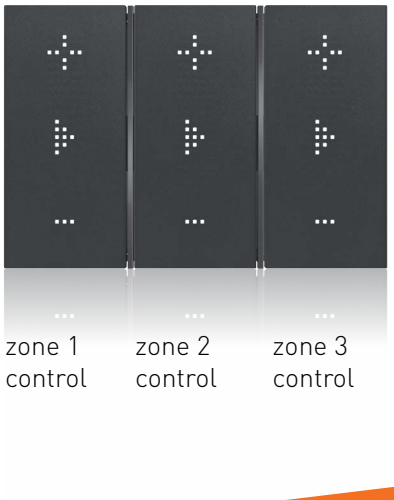

Flush-mounted device to control Play, Pause, Volume, Mute, and audio track Navigation functions

A single button allows quick access to 5 preset favourites

Backlit capacitive touch display

Connects easily with a single RJ45 802.11 PoE cable

Available in Livinglight version

LIVING NOW MyHOME_UP DIGITAL CONTROLS

NEW

Manage every single area of your home, also using the new Living Now digital controls.

Thanks to the architecture of the product, you can easily move the zone control where it is most comfortable in your home.

Functions managed: play/pause, volume +, volume -, skip track.

Capacitive control, connection with SCS BUS.

Available in Living Now version.

PLAYERS FOR FLEXIBLE SOLUTIONS

Single-zone wired/wireless player

Thanks to the wireless connection these players give an excellent sound even in spaces which are difficult to wire. Single-zone players support both wired Ethernet or Wireless 802.11a/b/g/n configuration options for optimal flexibility.

SPEAKERS.

The Nuvo speakers are high-performing products specially created to guarantee sound quality for real connoisseurs, with full and deep basses and impeccable performance.
Available in three different series, Series 2, Series 4 and Series 6 and for installation:

- ceiling-mounted,
- wall-mounted,
- for outdoor use

The speakers are made with quality components and materials but differ from each other for the different design criteria adopted and the sizing of the internal components.

The ceiling and wall-mounted speakers are supplied with 4 mm thick finish grids.

Indoor speakers

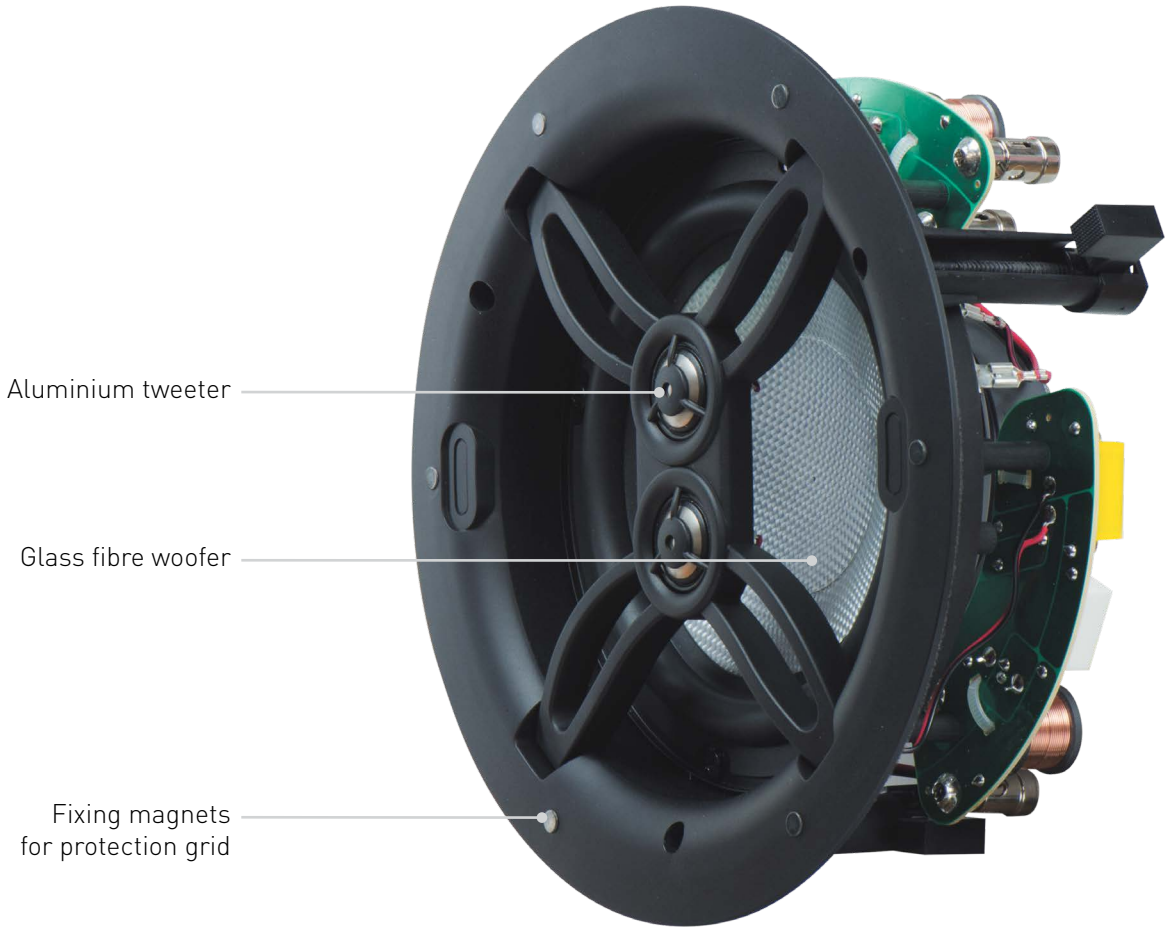

SERIES 2

Ideal for rooms where a balanced sound with moderate volume levels is needed. The silk dome tweeters and the polypropolene woofers give a soft, natural sound with deep basses and crystal clear trebles.

SERIES 4

These speakers provide better sound quality characterised by top notch clarity and dynamics thanks to the aluminium tweeters and glass fibre woofers.

Indoor speakers

SERIES 6

In addition to the players with the maximum power, these speakers provide great performance for sound system in large spaces of the house. The titanium speakers produce crystal clear and realistic sound while the carbon fibre woofer gives deep and definite basses.

Outdoor speaker

SERIES 2 AND SERIES 6 OUTDOOR SPEAKERS

The outdoor speakers feature powerful and crystalline sound thanks to the use of a 6.5" diameter woofer combined with 2 tweeters. The elegant design combines small size and a modern appearance which fits perfectly in any room.

Features

- Impedance: 8 Ohms;
- Grey painted in aluminium powder;
- Designed for safe and easy installation;
- Aluminium fixing bracket;
- IP65 protection;
- High protection against UV rays, saline air and extreme temperatures.

Note: availability expected in the first six months of 2018.
